

# The Changing Disability Policy System

## Active Citizenship and Disability in Europe Volume 1

*Edited by Rune Halvorsen, Bjørn Hvinden, Jerome Bickenbach, Delia Ferri, Ana Marta Guillén Rodriguez*

The Changing Disability Policy System: Active Citizenship and Disability in Europe Volume 1 approaches the conditions for Active Citizenship from a macro perspective in order to capture the impact of the overall disability policy system. This system takes diverse and changing forms in the nine European countries under study. Central to the analysis are issues of coherence and coordination between three subsystems of the disability policy system, and between levels of governance.

This book identifies the implications and policy lessons of the findings for future disability policy in Europe and beyond. It will appeal to policymakers and policy officials, as well as to researchers and students of disability studies, comparative social policy, international disability law and qualitative research methods.
